17 exchanges
44 entrepreneurs
supported to join the programme

1056 hours
of business coaching
for would-be & young
entrepreneurs

32,783 euros
as financial allowances
for young entrepreneurs

EYE Programme impacts entrepreneurs in the long term, as Fundatia Danis' alumni prove through their success stories.

Over 240 people participated, on Zoom and Facebook, in the webinar on pitching a social business delivered by Alex Gold, an alumnus of the EYE programme and Fundatia Danis.

Through Erasmus for Young Entrepreneurs international coaching exchanges, we bring extraordinary people and meaningful business experiences into the lives of young entrepreneurs.

Eight local stakeholders financially supported the programme: Sykes, NTT Data Romania, Hedvig, Trend Furniture, Creative Organization Solutions, Cheap Tea, Aisoft, BM Bau Structure.

Social Innovation & Social Entrepreneurship

Supporting social initiatives of young people

- ✓ 51 young people and 16 local stakeholders joined our research efforts to understand youth social and civic initiatives in Romania. Read the national report and the guide on the best practices [here](#).
- ✓ Over 50 young people joined our online workshop on social innovation & creativity.

2020-2022

2019-2022

Building the ecosystem for social entrepreneurship

- ✓ Over 20 national stakeholders joined our research efforts to understand the ecosystem of social entrepreneurship in Romania, and build the social business incubation model.
- ✓ Three key human-centered educational resources were developed to be used by European organizations in incubating social businesses. Check the resources here: <https://wegrowideas.eu/selc-community/>
- ✓ 15 facilitators from Romania, Cyprus, and Italy were trained to use SELC resources with would-be or new entrepreneurs.

2021-2022

Connecting social entrepreneurs with VET

- ✓ 27 VET providers and social entrepreneurs helped us to explore the social enterprise sector and its interaction with the education system and work placement programmes run by VET and higher education institutions. The collected data, available [here](#), is used to design a framework of collaboration between the two sectors.
- ✓ 10 VET & social enterprise staff from the UK, Sweden, Italy and Romania were trained and involved in the development of the framework.

Erasmus+

Digital Skills and Future Skills for Young People

Enhancing media literacy & civic engagement of young people through storytelling & design thinking

- ✓ 25 young people piloted MLagers Design Thinking Journeys.
- ✓ Over 20 young people and other relevant stakeholders were involved in the development of the media literacy game.
- ✓ Three key educational resources on design thinking & storytelling were created.

MLagers resources are available [here](#).

Supporting young people to better adapt to the labor market by improving their emotional intelligence

- ✓ 50 young people supported us to design the EILM emotional intelligence test.
- ✓ Approx. 10 local stakeholders were involved in the development of EILM educational resources.
- ✓ Three key educational resources on EQ were created.

Join EILM project as a vocational advisor and download the educational resources [here](#).

Enhancing media literacy & civic engagement of young people through media & digital education

- ✓ 12 staff from Norway, Finland, and Romania learned and shared their media and youth civic engagement expertise in an international training course.
- ✓ Five key media & digital educational resources are developed.

Resources will be available soon [here](#).

Promoting digital skills and future skills in the youth sector

- ✓ Four digital learning tools and resources were developed and promoted within the youth sector in Romania, Norway, Ireland, and Poland.
- ✓ 21 youth workers were trained to deliver digitally enhanced workshops on 21st-century skills for young people.
- ✓ 77 young people from Romania developed their digital and 21st-century skills.

Skill IT resources are available [here](#).
